EXPERIENCE

Junior Flutter Developer

Cybrnode

📅 09/2021 - 03/2022 📍 Garden Town, Lahore

- I completed my internship there and got hired as a junior flutter developer.
- I was working solely on a project named as Switch Driver at CYBRNODE.
- Problems with logic: Using my problem solving skill, i created many difficult logics there.
- Track a user's location and showing it on map. I solved it swiftly by adding a small piece of code.

Customer Support Representative Team Lead

Digital Estimating

📅 08/2021 - Present 📍 Garden Town Lahore

- Within a short interval of time i had achieved the position of a team lead for CSR department there.
- **On call recording:** Before i was working there, there was no way to track a call from a client after we answer it. I solved that issue, using a screen recorder and keeping those recordings save.
- **Problem to train new hires:** When a new employee for the position of CSR was hired there was no way to train him then giving him real life experience which can cause losing of customers, I solved it by storing some important call recordings which will help new hire to understand the nature of calls he will be receiving

INDUSTRY EXPERTISE

Flutter Developer

SKILLS

Android SDK

Mobile Application Development

Agile Methodologies

Flutter

Dart

Firebase

Google Maps

API integration

In-app calendars

Git

Deep Linking

CERTIFICATION

Flutter internship

I completed my internship in flutter from CYBRNODE. There i got to learn a lot of new things that i had never hear of before. Most important thing I got to learn was code writing style and code formatting

Tech War Mobile app winner

University of South Asia (Tufail Road Campus).

FESTIVASIA 4th edition winner

University of South Asia (Tufail Road Campus).

EDUCATION

Bachelors in Software Engineering - BSSE

University of South Asia - Cantt campus

📅 10/2020 - 07/2024 📍 Cantt, Lahore

Intermediate In Computer Science (Physics)

Govt. Islamia College, Civil Lines

📅 09/2017 - 09/2019 📍 Lahore, Pakistan

Matric in Biology

Govt. Central Model School Lower Mall

📅 01/2015 - 01/2017 📍 Lahore, Pakistan

PROJECTS

Life Link

📅 02/2024 - 05/2024 📍 Lahore

Developed a comprehensive mobile application, LifeLink, to enhance emergency response and hospital bed management. Key features include.

- **Patient Module:** One-click ambulance requests during emergencies.
- **Ambulance Driver Module:** Real-time request notifications and route optimization.
- **Hospital Management Module:** Real-time bed occupancy updates and efficient resource allocation.

Mera Godamm

📅 11/2023 - 12/2023 📍 Lahore

This is an inventory management application specially developed for Shoes wholesalers, it helps them to keep a record of their inventory and also helps them keep a record of their daily sales instead of keep it on paper.

Quiz App

📅 03/2024 - 04/2024 📍 Greece

This was a quiz app built on demand for a **Fiverr client**. This app was using an API to get quiz information and client had also provided me with a document which contained questions for quizzes. I had to **import those documents and extract questions** from them. And integrate them in application. I also had to randomize all the questions every time a user used that app.

- Data was being fetched from an **API**.
- Some **documents** were also provided to get data from

Freelancers Calendar

📅 07/2024 - 08/2024 📍 United States

This project was also for a **Fiverr client**. This was for freelancers or workers who do odd jobs. They could keep record of all their jobs and how much they earned from these jobs. Some key features are below:

- Firebase as database and also for authentication.
- In-App Calendar and jobs were shown below all dates on which they were due.
- Earnings Char.
- Filters for earnings and jobs as per dates.

KEY ACHIEVEMENTS

Tech War Mobile app winner

We joined an inter-university competition to create an e-commerce app with a CART system. We added an API for sample data. Our app met the requirements, offering valuable insights and practical development experience and helped us to win competition

FESTIVASIA 4th edition winner

It was an inter-university app development competition was held in our university with the help of Softech society. 4-5 teams were competing in that competition and we were given a small application to build. We won that competition with first position.
