WORK EXPERIENCE

Junior Flutter Developer
CYBRNODE

11/2022 - 03/2023   *Lahore*

That was software house specialized in building web and mobile apps

Project Ownership

- I was working solely on a project named as Switch Driver at CYBRNODE.
- Problems with logic: Using my problem solving skill, i created many difficult logics there.
- Track a user's location and showing it on map. I solved it swiftly by adding a small piece of code.

Contact : Umar - umar@cybrnode.com

SKILLS

Flutter Development   Google Maps   Deep linking

API Integration   Firebase   Firestore

Debugging   GetX   Bloc

PERSONAL PROJECTS

Mera Godamm (11/2023 - 12/2023)
- This is an inventory management application specially developed for Shoes wholesalers, it helps them to keep a record of their inventory and also helps them keep a record of their daily sales instead of keep it on paper.

Life Link (03/2024 - 05/2024)
- Developed a comprehensive mobile application, LifeLink, to enhance emergency response and hospital bed management. Key features include.
- **Patient Module:** One-click ambulance requests during emergencies.
- **Ambulance Driver Module:** Real-time request notifications and route optimization.
- **Hospital Management Module:** Real-time bed occupancy updates and efficient resource allocation.

Freelancers Calendar (06/2024 - 07/2025)
- This was a freelance project. This was for freelancers or workers who do odd jobs. Some key features are below.
- **In-App Calendar** and jobs were shown below all dates on which they were due.
- Earnings **Chart**.
- **Filters** for earnings and jobs as per dates.
